

# MAPEI PERFECT SEAL

Multi-purpose tool for removing old seals and smoothing new joints

## BENEFITS AND FEATURES

- Handy multi-purpose tool for renewal of existing seals
- Easy removal of the old sealant, thanks to the shaped metal tip
- Perfect removal of any residual traces, thanks to the plastic scraper
- Easy and precise smoothing of the new sealant
- 5 different soft rubber trowels with different rounded profiles to fit all joint widths
- In combination with **UltraCare Smooth Silicone** liquid smoother, it avoids the use of side masking tapes

## WHERE AND HOW TO USE

Multi-purpose tool for easy removal of old sealants and smoothing of new joints.

First function: remove existing seals.

To remove the existing sealants, immerse the metal tip of one end of **Mapei Perfect Seal** into the sealant, push the tool along the section to be removed and remove the strip of old product.

Second function: remove residual traces of sealant.

To remove residual traces of existing sealants from surfaces adjacent to the joint, use the plastic scraper at the opposite end of **Mapei Perfect Seal**, moving the tool alternately to remove films or traces of hardened product.

Third function: smoothing new joints.

To smooth and finish a newly applied sealant, use **Mapei Perfect Seal**'s specific top slide. Press one of the five different interchangeable rubber rounded profiles with different bending radius into the V-shaped end of the slide, spray a thin film of **UltraCare Smooth Silicone** liquid smoother on the surface of the fresh sealant and on the sides of the joint. Then properly press **Mapei Perfect Seal** onto the fresh sealant, removing excess material and smoothing the surface in a steady, continuous movement.

## TECHNICAL CHARACTERISTICS

Closed tool size: 185 x 50 x 50 mm

Tool weight: 100 g

Rubber trowels with different rounded profiles (R = sealant bending radius)

R 3 mm

R 5 mm

R 10 mm

R 13 mm

R 17 mm

## WARNING

The tool also consists of sharp metal parts: always avoid contact with fingers and wear protective gloves. Immediately after use, clean the rounded profile used with a clean cloth.

## PACKAGING

Box with 1 tool in single package.

## COLOUR

Black.

## SAFETY INSTRUCTIONS FOR PREPARATION AND APPLICATION

**Mapei Perfect Seal** is an article and referring to the current European regulations (Reg. 1907/2006/EC - REACH) does not require the preparation of the Safety Data Sheet. During use, it is recommended to wear gloves and goggles and follow the safety requirements of the workplace.  
PRODUCT FOR PROFESSIONAL USE.

## WARNING

*Although the technical details and recommendations contained in this product data sheet correspond to the best of our knowledge and experience, all the above information must, in every case, be taken as merely indicative and subject to confirmation after long-term practical application; for this reason, anyone who intends to use the product must ensure beforehand that it is suitable for the envisaged application.*
